

Southeast Community Health Worker Network

The strength of our network lies in our diversity and having active representation across the southeast region. CHWs, allies, and other advocates are welcome! Our network is inclusive and open to all regardless of geographic location!

Network Highlights:

- Creating a space to share best practices, address challenges & barriers, and acknowledge the impact of the work CHWs do in their communities
- The network distributed 5 grants of \$20,000 to state CHW associations or start up programs in 2022
- One of the most active regional network with regular monthly meetings including over 70 attendees

Monthly Meeting Time

Third Tuesday of the month from
10:30 am - 12:00
pm EST
